

Accumulator

- Material number R961002503
- Material short text DIAPHRAGM ACCUMUL TS-HC-HAD0,7-210-1X/&
- The accumulator module takes up a certain volume of pressurized liquid and releases it again if required.
- The accumulator shut-off block with pressure relief valve and manometer serves the manual limitation, blocking and unloading of the diaphragm-type accumulator. Connections via self-sealing coupling plugs.
- The accumulator module is delivered without filling. Before operating it, fill it with nitrogen; for the corresponding instruction, please refer to the operating instructions.
- Dimensions mm (L x W x H) 225 x 165 x 350
- Weight kg 9.9
- Nominal volume l 0.75
- Nominal pressure bar 100
- Pressure rating bar 100
- Industrial type Accumulator: HAD 0,7-210-1X
Accumulator shut-off block:
ABZSS10M-2X/100B/S30V

Scope of Supply

- Diaphragm type, Capacity: 1 liter
- Working pressure: 20 kg/cm²
 - Pre-charge pressure: 35 kg/cm², Nitrogen gas, With Safety Block With valve and QRC
